Neuromodulation I

Spinal Cord Stimulation

Persistent Low Back Pain

11th May 2012

Stargate & Skills Lab
Neurosurgery Division

Department of Surgery, UKMMC
in conjunction with MASP & MSIPP

Welcoming Message

Dear friends,

This is the first time, the Neurosurgery division of surgical department, UKMMC, in conjunction with MASP (Malaysia Association of Study of Pain) and MSIPP (Malaysian Society of Interventional Pain Practitioners) are organizing the very first neuromodulation workshop in our country which are concentrating on "Spinal Cord Stimulation" in the management of persistent low back pain. We are proud to invite you to this didactic workshop, which is not only having comprehensive lectures by the renowned international level speaker, Prof. Peter Teddy but also by other outstanding local speakers as well. Prof. Peter Teddy is a world class Neuro- and Pain surgeon and currently practice in Royal Melbourne Hospital.

This workshop also involves a cadaveric demonstration and extensive panel discussion where by difficult cases can be raised up to discuss with the expert from different fields. It is designed to give an overview of management of persistent low back pain and at the same time to introduce "Spinal Cord Stimulation" which is one of the clinical proven cost effective method in the management of difficult chronic pain syndrome. This will offer another option or hope for patients with difficult -to-treat pain condition.

We believe that whether you have been practicing spinal cord stimulation or you are new to this field with basic skills, we are confident that this workshop will provide comprehensive review knowledge to you. Furthermore, the cadaveric demonstration will give you a good idea of how this procedure is being done. After all, it is essential to learn new and relevant information in order to survive in current continued advancing medical technology and knowledge.

We sincerely hope that you are as excited as us to attend this workshop. We look forward to seeing you in UKMMC.

Lastly, I would like to thank the entire committee members who have contributed their effort; and the companies, especially St Jude Medical for supporting this exciting event.

Thank you.

Dr Toh Charng Jeng
Organising Chairman
Neuromodulation I Workshop

Scientific Program

| Time | Topic/Speaker |
|------------------|---|
| 8.00 – 8.15 am | Registration |
| 8.15 – 8.25 am | Opening ceremony – Assoc. Prof. Dr. Razman Jarmin Razman (Head of Surgery department, UKMMC) |
| 8.25 – 8.45 am | Neuromodulation (Assoc. Prof. Dr. Azizi Abu Bakar, Head of Neurosurgery division, UKMMC) |
| 8.45 – 9.05 am | Impact of persistent low back pain in Malaysia. (Prof. Dr Ramani Vijayan, Consultant Anaesthesiologist and Pain Specialist, Anaesthesiology Department, UMMC) |
| 9.05 – 9.25 am | The importance of multimodality management of persistent low back pain (Assoc Prof. Dr. Choy Yin Choy, Anaesthesiology department, UKMMC) |
| 9.25 – 9.45 am | Neuroimaging in Persistent Low Back Pain (Assoc. Prof. Dr Ahmad Sobri Muda, Neuro and Interventional radiologist, UKMMC) |
| 9.45 – 10.00 am | Tea |
| 10.00 – 10.20 am | Failed Back Surgery Syndrome – Etiology and Diagnosis (Mr. Azmi Baharudin, Consultant Orthopedic & Spine Surgeon, UKMMC) |
| 10.20 – 10.40 am | Intervention Spinal procedure in Persistent low back pain. (Dr. Muralitharan Perumal, Consultant Anesthesiologist and Pain Specialist, Anaesthesiology Department, HTAR) |
| 10-40 – 11.00 am | How does psychological assessment influence on the outcome of SCS (Dr. Zubaidah Jamil Osman, Clinical Psychologist, UPM) |
| 11.00 -11.20 am | The rationale of patient selection criteria for SCS (Prof. Dr Peter Teddy, Consultant Neurosurgeon and Pain Surgeon, Royal Melbourne Hospital, Australia) |
| 11.20 -11.40 am | Mechanism of SCS (Dr. Toh Charng Jeng, Consultant Neurosurgeon, UKMMC) |
| 11.40 – 12.00 pm | Cost-effectiveness of SCS (Prof. Dr Peter Teddy, Consultant Neurosurgeon and Pain Surgeon, Royal Melbourne Hospital, Australia) |
| 12.30 -2.00 pm | Lunch |
| 2.00 – 2.45pm | Demonstration (Prof. Dr Peter Teddy and Dr. Toh Charng Jeng) |
| 2.45 – 3.45pm | Panel discussion. |
| 3.45 – 4.00 pm | Closing |
| 4.00 – 4.30 pm | Tea |
