Malaysian Association for the Study of Pain  
16-17th March 2012  
Theme: "Pain - A New Conundrum"

Dear friends and colleagues,

I hope that clinicians from different parts of the country and in different disciplines will join us at our scientific meeting. It will give you an opportunity to update your knowledge and interact with experts in the field of pain medicine. In addition it will be an opportunity to renew friendships or forge and make new ones.

The scientific committee has tried to put together a program that is interesting and clinically relevant to your practice. The pre-congress workshops have been designed to upgrade your clinical skills. I hope you will be able to join us at the Swan Convention Centre for the two day scientific meeting - 16th and 17th March 2012.

Prof Ramani Vijayan  
Organizing Chairperson

**Venue: Swan Convention Centre**

Sunway Medical Centre, No.5 Jalan Lagoon Selatan, Bandar Sunway,  
46150 Petaling Jaya, Selangor Darul Ehsan, Malaysia.

Malaysian Association for the Study of Pain  
Scientific Meeting 2012

16th -17th March 2012  
Swan Convention Centre, Sunway Medical Centre

PRE-CONGRESS WORKSHOPS  
Friday, 16th March 2012

Workshop 1: ULTRASOUND WORKSHOP -HAND-ON WITH LIVE MODELS

Time: 9.00 am - 12.30 pm

Venue: Lotus Room 1

This workshop will give participants an opportunity to learn how ultrasound scanning can be used for peripheral nerve blocks and how it can be used to diagnose and/or confirm some chronic pain conditions. Participants will also have hands on practice with scanning using live models.

The number of participants will be limited to 30 on a “first come first served basis.”

Workshop 2: TROUBLE SHOOTING IN THE ACUTE PAIN SERVICE  
- THE NURSING PERSPECTIVE

Time: 9.00 am - 12.30 pm

Venue: Rainforest & Ginger Room

This is an interactive workshop where participants will have an opportunity to discuss problems that arise both in the running of an acute pain service (APS) as well as general problems that arise in taking care of postsurgical patients. The learning objectives include assessment of pain, analgesic techniques, how to deal with problems associated with special techniques such as patient controlled analgesia and epidural analgesia and management of side effects.

The workshop is aimed at nurses and will be limited to 60 participants on a “first come first served” basis.
