of Pain

Looking Beyond the Horizon

Pain is one of the most common reasons why people seek medical treatment. This year the International Association for the Study of Pain is celebrating the "Global year against acute Pain". The Malaysian Association for the Study of Pain in actively supporting this theme. Pain management can be improved with education of healthcare providers and well as partners. The Department of Anaesthesiology and Intensive Care, Universiti Kebangsaan Malaysia Medical Center and The Malaysian Association for the Study of Pain have made a conjoint effort to organize this conference to promote better quality in pain management by improving the knowledge andskills of healthcare providers with regards to acute pain management. The theme of this conference is "Looking beyond the horizon" emphasizing on the importance of having up-to-date knowledge in achieving effective results and patient safety. The conference aims to provide not just theoretical information on pain and its management, but also has workshops where participants can gain practical experiences and tips on how to make pain management achieve its impact

Target audience: Anaesthetist, Pain Specialist, Oncologist, Surgeon, General Practitioner, Medical Officer, Palliative Care Team, Hospis, Nurse, Physiotherapist, Pharmacist, Allied Health.
